"You might have found it out by ac

"Well, here it is on my shirt," said the other man angrily, "and here on my vest and my socks and my coat. Now, then give me that parcel!"

But still the expressman was obdurate.
"You might have stolen the clothes," he

said provokingly.
"Well," was the exasperating retort of For a moment the expressman stared

#### WE'RE FOR AMERICA@AMERICANS!

No DEVELOPMENT in the busine the recent announcement by a lead ing commercial agency that the sales of goods in April were within a small frac tion of the amount in the most prosper ous business year which the country has seen for a long time. That there is a ference to convene at genuine revival in business activity is apparent, not alone from this announce ment but from the statements of the press, irrespective of party, in every section of the country.

THE return of the Republican party to power in the United States has been the signal for renewed activity on the part of the South American Republica in favor of closer commercial relations with the United States. They know that Republican methods increased their trade with us and that the return of the Republican party to the control o the Government warrants their sending a delegation of their leading merchants and business men to encourage close trade relations.

THAT the pending Tariff Bill is es pecially satisfactory to the farmer is shown by the closing sentence of an article in The Minneapolis Tribune, whos editors have especial facilities for test ing the sentiment of the agricultural ses of the country. The sentence in mestion says: "There is one thing certain; the Western farmers will not have any cause to complain that the bill was constructed in the interests of Eastern manufacturers and capitalists as opposed to their own: it is the most favor able Tariff Bill to farmers ever framed.

WHILE the great majority of th eriminating duty policy for the protect tion of American shipping in the for eign trade, there has been opposition to the policy, nevertheless. The opposition was confined to a very few people, however, and the latest information indi cates that this has disappeared. It not looks as though there would be a com mon understanding among all Ameri cans in behalf of the discriminating duty policy, and the opposition will be felt and shown by the foreign shipping

### In the Interest of the New Railroad to be Held in Maysville on the 27th.

Colonel Albert E. Boone, Promoter and General Manager of the Black Diamond System of Railways, of which the Maysville, Kentucky and Western Railroad is to be a section, has issued the following circular to the Mayor and the citizens of Maysville:

#### THE BLACK DIAMOND TRUNK LINE

THROUGH THE "SOUTHLAND."

ALBERT E. BOONE, GENERAL MANAGER

It is my purpose, as the Promoter of the Black Diamond System of Railways, to pass through your place with one of its lines. To the end that all can work as one, a grand Railroad Mass Meeting has been called for con-

MAYSVILLE, KY., THURSDAY, MAY 27th, 1897, AT 2 P.

The people of the county of Knox, state of Tennessee, of which Knox ville is the county seat, have pledged a subsidy of \$500,000 for the Black Diamond outlet from Knoxville, Tenn., to the Obio river, and a like sum of \$500,000 for the Black Diamond outlet to the sea.

Anyone familiar with railroad construction will tell you that such a subsidy, backed by a free right of way, insures the early building of every line of the Black Diamond System of Railways that can be got ready for construction, backed by a free right of way.

I would be gratified to see a strong delegation from your place and unity. It will be the grandest railroad demonstration ever made, because it a movement of the people to cut the Gordina knot of high freight rates, well as to rapidly advance the upbuilding of the cities, towns and villages as well as to rapidly advance the uponising of the cities, fowns and viniges along the lines traversed by the Black Diamond, by concentrating all energies toward local traffic instead of through service. The latter does not help sustain or profit any community. Every through passenger train says the life of your section in the interest of the large cities that have no interest in common with its welfare. The policy of the Black Diamond will be just the opposite of other trunk lines; it will work its railways solely in the interest of the people along its lines.

A strong delegation from Knox county, Tenn., have signified their will-ingness to be present to attest their fealty to the Black Diamond cause, and faith in the projector, who is at the helm solely in the interest of the people

Enjoying the hope that you will call a meeting of your people, to the end that your section will be duly represented, I am with respect,

A WEALTHY KNOXVILLIAN WHO INDORSES COLONEL BOONE

THE STRONGEST TESTIMONIAL OF THEM ALL.

Colonel M. C. Russell has kindly handed The Ledger a letter from Mr. M. L. Ross, head of the Wholesale Grocery firm of M. L. Ross & Co., Knoxville, which speaks for itself.

It may be stated that Mr. Ross has a commercial rating in one agency of from \$300,000 to \$500,000, and in another at from \$250,000 to \$300,000;—and that people who are so rated are a little careful who they "indores;" yet Mr. Ross gives his unqualified indergences both to the the state of the movements of any single individual. unqualified indorsement both to the Black Diamond System and to Colonel Boone individually.

Here is the letter:

KNONVILLE, TENN., May 21st, 1897.

Colonel M. C. Russell, Chairman Raitroad Committee,
Maysville, Ky.—My Dear Str. It is with much pleasure that
I learn that you are to have a great mass meeting of your people in the interest of the Black Diamond System of Railways,
including a line of same from Columbus, O., via West Union
to Aberdeen, O., opposite your city, thence Southward via
Jellico and Knoxville to the sea.

Jellico and Knoxville to the sea.

For myself, as President of the Knoxville Junction Terminal and Belt Line Railway Company and of the Ohio River, Knoxville and Tidewater Railway Company,—and I am sure I voice the sentiment of the people of my county and section,—I wish to say that we trust your community will boil over with enthusiasm in behalf of this enterprise. In my view our interests in the accomplishment of this great work are identical, and this system of roads is absolutely essential to the development of our inexhaustible mineral resources. The prospect for a return of confidence and consequent prosperity is bright, and the day of emancipation from the bondage of high rates is dawning upon the South.

Rally your people and join us in one mighty effort to

to the Atlantic Ocean.

And further I learn that Colonel Albert E. Boone, the promoter and General Manager of the system, is to be with you. After a personal acquaintance of more than two years with the Colonel I can most heartily indorse ham as better fitted to carry such an enterprise to a successful issue than any other man within my knowledge. As a member of the Board of Directors of the Knoxville punction Terminal and Belt Line Railway Company and of the Ohio River, Knoxville and Tidewater Railway Company, I have been instinately associated with the Colonel in the management, and know him to be a man of unquestionable integrity, untiring energy, matchless ability and master of his profession in the promotion and building of railways, and if given reasonable support you can rest assured he will carry out, in the strictest good faith, any pledges he may make your people. Nine-tenths of our city and county people woled him a subsidy to sccure the survey and rights-of-pole voled him a subsidy to sccure the survey and rights-of-pole ythrough the county, and at the proper time will vote as favorably for a large construction subsidy.

Be assured of our sympathy with the object of your meeting and of our hearty co-operation with you in the promotion and construction of the road, as well as of our hearty indorsement of Colonel Albert E. Boone. Most respectfully,

Convention.

In this latter matter Colonel Russell is mistaken, necause it is a convention of all the people anxious to see the Black Diamond constructed. Of course, Mays ville deciding before the convention meets that she will not even make an effort to secure the crossing of the Black Diamond lines at the Ohlo River, may have a dampening effect upon the spirits of some of the delegates; yet, when the spirits of some of the delegates; yet, when the spirits of some of the delegates; yet, when the spirits of some of the delegates; yet, when the spirit will be a spirit of some of the chellenge of the Ohlo River, with a bridge in Mays ville and expense of terminals, would be that which will be Mayswille's loss will be the gainer to the road after its construction, by keeping fully one half million of dollars in the treasury of the construction Company, if not in the treasury of the road tasef.

What got lust othat Committee! In all my life I ewer met a more latelligent set of men, or men who frankly gave their judgment that the proposition was all and a reaction cannel help butter in otherwise a great and serious mistake has been made.
